### EXPLANATORY NOTES

**Introduction**

The Digest contains the latest available figures at the time of issue for a selection of monthly and quarterly economic series. Where possible, series are shown both in their original and seasonally adjusted form.

**Adjustments to series**

2. Besides being adjusted for normal seasonal factors, some of the statistical series included in the Digest have been adjusted for the effects of calendar variations, namely, 'trading-day' effects (arising from the varying numbers of Sundays, Mondays, Tuesdays, etc. in a month) and the influence of movable holidays, such as Easter and Australia Day.

3. Most of the original and seasonally adjusted series are preliminary and subject to revision.

**Related publications**

4. More detailed information is available in the *Monthly Summary of Statistics, Australia* (1304.0) (\$3.80, \$4.60 incl. postage). Publications from which the series in the Digest are derived are listed on page 8.

5. Current publications produced by the ABS are listed in the *Catalogue of Publications, Australia* (1101.0). The ABS also issues, on Tuesdays and Fridays, a *Publications Advice* (1105.0) which lists publications to be released in the next few days. The Catalogue and Publications Advice are available from any ABS office.

**Symbols and other usages**

- p preliminary—figure or series subject to revision
- n.a. not available
- n.y.a. not yet available
- break in continuity of series (where drawn between two consecutive figures in the same column)
- r figure or series revised since previous issue

6. Where figures have been rounded, discrepancies may occur between sums of the component items and totals.
